

Delivery & Shipping

We offer free delivery in Athens (Pireaus). Our factory is located just a few minutes (20) from Heraklion harbour thus making shipping containers very easy & affordable for those looking to buy kayaks in bulk from abroad.

Shipping a kayak in general is a nightmare due to its size. For those buying in bulk for shipping abroad, the safest and usually cheaper way is to ship with a container.

Our factory is just a few km from Heraklion port. We deliver the boats for free to the shipping company.

The company that we use and highly recommended is MSC.

You can find their contact details on their web site at <https://www.msc.com/grc/contact-us/msc-heraklion>.

Their full details (copied from the above link) are:

If you are an individual and you do leave in Greece just drop us an email with your location. We deliver in most of the cities for free.

For outside of Greece you can either arrange shipping via any company you prefer. We can deliver the boats in Athens for free so any arrangement has to be done from there. It is usually much cheaper than shipping direct from Crete. In any case if you are not sure drop us an [email](#).
