

Kayak Repairs

Repairs can range from minor gelcoat and paint repairs to major structural and total restorations. We can repair either fiberglass or wooden kayaks. At the time being we don't offer repair services for carbon kayaks.

We offer repairs in our workshop near Heraklion, Crete. Having said that repairs of course can be take place in any marine shop that offering repairs in boats as the majority of repairs won't require special tools. Marine shops are nearly in all major cities in Greece.

Gelcoat repairs, keel strips fitting, small cracks, star cracks, placement of compasses and similar repairs can also take place.

If you however have to send us your boat to our workshop, the cheapest way from Athens will be via ferry. Shipping back your boats to Athens (Piraeus) is free of charge.

To send you a quote we will need some good quality pictures that shows the areas that need repair and your full contact details.

You can either get in touch with us via phone or by email. Both can be seen in our [contact page in this link](#).
